

United Streaming Use in the Classroom

Description: In my classroom, I utilize Discovery Education, unitedstreaming.com, to support the content being discussed in all subject areas. I visit the site and search for an appropriate video or audio to share with my students. I have been able to find different sound clips or songs to support math and phonic skills.

Impact: Using this resource has allowed me to provide additional knowledge with the use of videos, audios, and literature. The students gain more information in the form of fun and exciting ways, and enjoy the videos that they get to watch.

Intent: I intend to continue using United Streaming in my classroom to support skills and concepts being taught in the classroom. I also intend to share the option of this resource or found videos/audio with colleagues to use in their own classrooms.
